

Science

Y6- Light

Children will recognise that light appears to travel in straight lines and use the idea that light travels in straight lines to explain that objects are seen.

Y5- Properties and changes of materials

Children will compare and group together everyday materials on the basis of their properties. They will give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic.

MFL

French School Days

DT

Textiles- Design a pair of slippers- using a range of stitches, materials, decorations and attachments.

History

Shang Dynasty

This unit explores the leadership of the Shang Dynasty (c.1600-1046 BCE) and examines how leadership has evolved over time. By studying the Shang rulers, their power, and governing methods, students will compare ancient leadership structures with modern leadership, developing their understanding of authority, responsibility, and governance.

Summer 1- Eagles (Class 5)

Computing

Children will be able to-

- understand that bit patterns represent images as pixels.
- understand that the data for digital images can be compressed.
- know the difference between ROM and RAM.
- understand various techniques that will improve the design of a 3D object (using CAD software).
